Send drawings to the Microsoft Repository for Enterprise Collaboration and project management (RCM). It will hold on to file history, create password-protected drawings, and be automatically uploaded to other users. Use it to control access to drawings and generate reports. (video: 1:12 min.) Work in the DGN/DWG document format. Rather than switching to DWF when you save drawings, you can use the same format as your drawing documents to collaborate with others in your organization who use AutoCAD. It also creates and opens DWF files, and is compatible with AutoCAD 2019 and later. (video: 1:07 min.) Create a baseline
