

December 19, 2021 - Coub is YouTube for video loops. You can take any video, trim the best part, merge with other videos, add soundtrack. And all this - in real time, right on Coub. If your friends don't use Coub, they won't be able to rate your videos because there won't be any for them. You can post videos anywhere. Facebook, Twitter, Instagram, Flickr, Reddit, Vine, Tumblr and other platforms can integrate with Coub to add comments, likes, retweets and views. To do this, you only need to install and run Coub.
